THANK YOU!

We are super excited that you purchased one of our Pixel Planner products from the Holly Pixels shop. You can delete this spread and the other description pages after you have read through this information to help you get started.

COPYRIGHT + USE

Our planners are our proprietary design and cannot be used to create your own designs for sale. Due to the nature of Pixel Planners available as an instant download, no refunds can be offered nor can they be exchanged.

HORIZONTAL FORMAT

This is our Pixel Planner in horizontal format. It is meant to be used over and over again, each year. Calendar dates are left blank intentionally. You can write on them, fill them with text, or place a sticker; customizing it for your needs. Pixel Planners are 150 PPI and not suitable for printing.

NOTE TAKING APPS

Our planners are PDF files with interactive hyperlinks. You can import them into any note taking application that works with hyperlinks such as: GoodNotes, Noteshef, Zoom Notes, etc. This planner will not function with OneNote. Please note that we are not affiliated with these note taking applications. You do not receive

these apps with your purchase of our Pixel Planners. For support using those applications, please contact

their respective websites. Our planners work well with most tablets like the entire Apple line of iPads. To

check your device and stylus compatibility with a note taking app first, visit their websites. For how to import

planners into a note taking app visit our [Digital Planner Journey](#) page.

TABS

- Home Section - This section contains year at a glance style inserts and other miscellaneous helpful inserts. The bottom left corner of your planner has a HOME icon. This links back to this section.
- Month Tabs - This section features undated month, weekly and daily inserts. Each tab links to the section for each month. Once inside this section, you will note a CALENDAR ICON appears at the bottom left corner of your planner. This links back to the month section. Choose your weekly starts before duplicating pages. Delete the sets that you won't use first. This will save you time in the long run!
- Tracker Tab - This tab has a few different tracker inserts.
- Budget Tab - This tab has a few different budget tracker inserts.
- Notes Tab - This tab has three note style inserts.
- MISC Tab - This is a set of blank pages to use as you wish (great for your favorite stickers).

DUPLICATING PAGES

We have included one insert of each style in each section. This allows us to keep the file size smaller upon

delivery. We have included both a Monday and Sunday start week option throughout for you to choose. You

can duplicate these as needed, or remove the ones you don't want to use. We recommend removing the week

starts you don't want first, before duplicating multiple copies. If using GoodNotes or Noteshef, locate the

Thumbnails section to easily duplicate pages or remove them. Just make sure you keep any duplicated inserts

in the divider section they belong in or the hyperlinks will not function properly. We have included a blank

spread at the end of each section so you can place your own inserts (think screenshots or stickers that you

can place like an image).
